Dated: 25<sup>th</sup> September, 2015

**Flight Check without Manifest and House Manifest**

**(Say 'NO' to hard copies of Airline's / CONSOL Manifest and AWBs)**

At IGI Airport Delhi, we took one more step for paperless transaction. We have developed a mechanism to integrate IATA Messages (FFM / FHL / FWB) while doing flight check in Import. Earlier we were integrating the Flight data through Electronic Data Interface (EDI) messages sent by Customs to Custodian, but we were receiving only 60-70% of House Air Way Bill (HAWB) data through EDI. Rest of the data was fed by using Hard Copies submitted by Airlines.

Moving forward for removing hard copies, we have developed an application for integration of FFM / FHL / FWB messages with Customs EDI messages, after introduction of this, the flight check is being done on the basis FFM / FHL / FWB provided by Airlines electronically and no hard copies are required. By providing electronic messages, Airlines can save manpower, time and papers which are required to be submitted to Cargo Terminal Operators (CTOs) by Airlines in the absence of these messages.

Thanks, for Airlines who are sharing FFM / FHL / FWB data electronically and already availing this facility.

We would also request the other Airlines, to please share the FFM / FHL / FWB messages electronically for paper free segregation of Import Cargo with immediate effect to increase efficiency and save the valuable time and cost.

Further any assistance, Please feel free to contact us at: [Tarun.Sharma@gmrgroup.in](mailto:Tarun.Sharma@gmrgroup.in)
